

## Key Features

- **Easy to drive – both on road and off road.** No trailer backing or 3<sup>rd</sup> axle cutting corners in tight situations.
- **Easy to park.** At the campsite or supermarket or in town. No trailer hitching and unhitching.
- **Easy and quick to set up.** Winch assisted opening and closing.
- **When you have opened your Wedgetail camper you can stay inside until the morning.** This is a really good idea when conditions outside are not good.
- **Inside/Outside kitchen.** Imagine a beautiful evening with friends in a perfect spot. Who wants to be stuck inside?..... Use the outside kitchen. This is also great for a lunch time snack and when you need to restock.

OR

Imagine a less than perfect camping spot (insects, cold, wet, windy, muddy). Do you really want to be stuck outside in all that?.....Use the inside kitchen.

- **Ensuite (inside) shower and toilet.** Great for cold nights and keeping away biting insects, mud etc. Can be left in place when the camper is folded. Unfolds automatically. Is not an additional set-up. No dirt to clean off when packing up.
- **Outside shower.** Can be used with the camper open or closed. Includes hot water when fitted. Great for cleaning up after a swim or fishing.
- **Queen sized bed** that remains made up with plenty of headroom to sit up in bed.
- **A large and spacious interior** with full standing headroom throughout.
- **Seven large windows** for excellent ventilation and panoramic views
- **Internal table and chairs and stainless steel sink with drainer.**
- **Inside/Outside storage compartments** with 2 way drawers. No need to open the camper to get clothes etc.
- **Access by stairs with hand support – no ladders!**
- **Large storage pod** to securely store solar panels, outside table and chairs, fishing gear and general.
- **Lockable and secure.**
- **Dust sealed.** On tray behind cab out of dust line. Automotive quality dust seals on all exterior openings. Large air filter on front of camper provides positive air pressure inside camper. It works like a snorkle. Air is forced out of any tiny little gaps rather than dust forcing its way in.
- **On tray or freestanding use.** Camper can be easily disconnected from ute to secure the campsite and for separate use of ute. Very stable free standing use with full headroom under awning to outside kitchen. Does not need ute or ropes and pegs (that could slip) for stability. Also good when you are back at home after a trip.
- **Options include a fully enclosed annex, canvas awning and diesel heater.**
- **Can tow a boat or other trailer.**
- **Less operating/ownership costs.**
- **Better fuel economy.**
- **Significantly reduced environmental impact.**
- **Five years structural and canvas warranty** (conditions apply) Zips and all other fittings covered by warranty for 12 months..
